

# Adam Shaul

## Full Stack Web Developer & Web Designer / UX Engineer

I am a well seasoned Front End Web Developer with a keen eye for aesthetics and a user experience oriented approach. I am an auto-didactic, self-starter known for clean, semantic and readable code, Passionate about delivering excellent product and looking for my next venture to grow and be an active member of the team.

## WORK EXPERIENCE

### Full Stack Web Developer at HackerU

04/2018 – Present

Ramat Gan, Israel

- Collaborating with design, content, product and marketing teams to develop and implement strong digital tools such as a salary calculator, to help users understand their potential earnings by signing up <https://www.hackeru.co.il/co> 📄
- Working with clients from both the US and Israel to clearly define specifications in order to achieve optimal user satisfaction.
- Leading the development and launch of various sites for HackerU's expansion abroad, as well as a general website that seamlessly translates on both web and mobile native, working with Back End Developers to maintain user friendliness.
- Responsible for working with graphic designers and PPC to design and develop landing pages to allow users to access information and leave contact details
- Building websites using clean code and transferring it to WordPress via Theme Development in order to provide access and ease of use to the company's content team
- Building and managing digital forms created with HTML / CSS / JS / PHP / Mysql to attain clean data from leads from both abroad and Israel for Customer Relationship Managers.
